## OFFICE OF SECRETARY OF STATE

---

This is the 54<sup>th</sup> Edition of the General Election Canvass Book that has been published in this state, and it is my first general election serving as Nebraska's 27<sup>th</sup> Secretary of State and Chief Elections Official.

As was the May primary, the November 3, 2020, general election was historic in a number of respects. There were 966,920 Nebraskans who voted in our general election, a turnout of 76 percent. Nebraska voters once again cast their ballots in large numbers in the midst of the coronavirus pandemic.

An unprecedented number of voters chose to vote early in the general election, but the percentage of those voting early was significantly lower than the May primary. More than 488,000 Nebraskans cast early ballots by mail, by drop box, or by voting early in person at their county election office. Close to 48,000 voters who cast their ballots in precincts that conducted their elections exclusively by mail. By comparison in the 2016 presidential general election about 233,000 voted early and again in the 2018 general election about 208,000 voted early.

On Election Day, every precinct opened on time and over 417,000 Nebraskans voted at their polling site. As in the primary election, measures were taken to assure the safety of voters and poll workers. I am very grateful to the more than 4,000 poll workers who kept Nebraska's polls open.

The success of our general election was the result of the efforts of our Nebraska voters, our County Clerks and Election Commissioners and their staff members, and the Secretary of State's Elections Division. I am also grateful to our election vendors, who provided exemplary service to our Nebraska voters.

Sincerely,

Robert B. Evnen,  
Secretary of State

# **Reported Problems**

## **Cedar County**

Northeast Community College At Large candidate Timothy Miller was left off the ballot countywide. This error was identified by the Secretary of State's Office through the mock election process. At the time the error was identified, ballots were already mailed out to voters and a third of voters had already voted. Statewide, Timothy Miller received 21,905 votes; Jeff Scherer received 30,799, including 3,798 in Cedar County. Adjusting Jeff Scherer's vote total to exclude Cedar County results in an adjusted total of 27,001. The adjusted difference between the candidates is 5,096 votes. As Cedar County had 5,058 voters total, this error did not impact the outcome of the election.

## **Hitchcock County**

Southwest Public Power District Subdivision 2 is a vote for up to two but was listed on the ballot as a vote for one. This error was identified by the Hitchcock County Clerk on October 16. At the time the error was identified, 158 ballots were already sent out to voters. The county clerk ordered corrected ballots by October 19, and all future ballots contained the correct "vote for" phrasing.

The county clerk put a notice in the newspaper regarding the error and attempted to contact all 158 voters who already received a ballot. Voters were advised of the error and that they could cast their vote for up to two candidates if they had not returned their ballot. Voters who had already returned their ballot were advised of the option to recast their ballot should they so desire.

Of the 158 voters, 157 returned or recast their ballot: 83 voters returned their ballot and were contacted with the option to recast a corrected ballot, but declined to vote a corrected ballot; 35 voters or family members were contacted before the ballot was returned and informed they could cast their vote for up to two candidates; 12 voters were left a message before their ballot was returned informed them they could cast their vote for up to two candidates; 8 voters who had returned a ballot opted to recast a ballot that had the corrected "vote for" phrase; 11 voters who returned their ballot had no contact information or could not be reached; 8 voters were unable to recast a corrected ballot because they put the ballot directly into the early voting ballot box. One voter did not return their ballot.

The difference in votes between second and third place was 65. With the outreach done by the clerk, and the small number of people unable to correct their ballot (19), this error was not likely to have impacted the outcome of the election.
